The control panel features two rotary dials. The left dial is surrounded by icons for various functions: a square with a circle, a fan, a flame, a water drop, a snowflake, and a flame with a circle. The right dial has a small circle at the top. Between the dials is a digital display showing the date and time. Below the display are five touch-sensitive icons: a crossed-out circle, a gear, left and right arrows, a plus sign, and a checkmark.
