

This exploded view diagram illustrates the assembly of a server chassis. The main components and their sub-assemblies are labeled with numerical identifiers:

- Top Panel Assembly:** Includes the top panel (200), top cover (1120), and top cover latch (1180).
- Front Panel Assembly:** Includes the front panel (350), front panel latch (360), front panel latch pin (405), front panel latch spring (110), front panel latch pin (300), front panel latch spring (380), front panel latch pin (390), front panel latch spring (280), front panel latch pin (260), front panel latch spring (400), front panel latch pin (340), front panel latch spring (250), front panel latch pin (330), front panel latch spring (320), and front panel latch pin (310).
- Internal Components:** Includes the internal chassis (1100), internal chassis latch (1190), internal chassis latch pin (1210), internal chassis latch spring (10), and internal chassis latch pin (1200).
- Bottom Panel Assembly:** Includes the bottom panel (510), bottom panel latch (420), bottom panel latch pin (410), bottom panel latch spring (420), bottom panel latch pin (410), bottom panel latch spring (425), bottom panel latch pin (414), bottom panel latch spring (412), bottom panel latch pin (412), bottom panel latch spring (420), bottom panel latch pin (430), bottom panel latch spring (416), and bottom panel latch pin (430).
- Other Components:** Includes the front panel latch (470), front panel latch pin (475), front panel latch spring (480), front panel latch pin (70), front panel latch spring (1100), front panel latch pin (20), front panel latch spring (30), front panel latch pin (40), front panel latch spring (510), front panel latch pin (530), front panel latch spring (520), front panel latch pin (416), front panel latch spring (430), front panel latch pin (500), front panel latch spring (412), front panel latch pin (412), front panel latch spring (420), front panel latch pin (430), front panel latch spring (416), and front panel latch pin (430).
